Hi Christian,

We reviewed your revisions to Appendix F. The extra information you added helped but it is still missing some linkages both in the text explanation of the process and in the tables. We made some suggested edits to the intro and case studies that will hopefully help. Also, because of the missing linkages, we think we know what you did but still aren't sure in some places. So, we took a guess at what we think you did and came up with a couple ideas for displaying and explaining it more simplistically. I'm attaching our comments and an example Jason put together that attempts to simplify the explanation of the source assessment and allocation process. Take a look over our comments and let's set up a time to discuss this so we can get this thing wrapped up.

We realize this has been a tough project for you and really appreciate all of your hard work.

Jason and I are both out on Friday but are fairly available tomorrow and Thursday. Let us know what works for you.

Lisa
